

## Training Opportunity Mass Casualty Incident Basic Training

**NO Cost to attend this training**

This course will review common MCI principals, lessons learned from prior incidents, and include hands on practice utilizing scenario-based training.

While the core audience for this program is EMS providers, others in healthcare and emergency services will benefit greatly. Integration between bystanders, on-site representatives and emergency responders is key to successful MCI mitigation.

**When: Friday April 17<sup>th</sup> 2026 0800-1600**

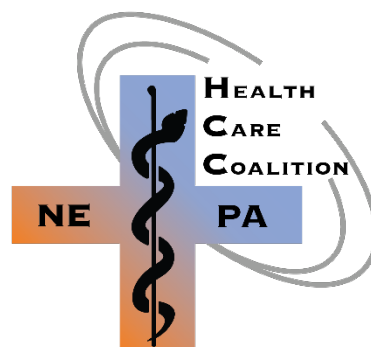

**Where: Lehigh Valley Emergency Services Conference at Desales University  
2755 Station Ave Center Valley PA 18034**
