

LEHIGH EMERGENCY SERVICES TRAINING ACADEMY

PER213 Wide Area Search

This course exposes participants to a search management system focused on resource management and search documentation designed to conduct search operations efficiently and effectively. The instructor cadre will lead participants through facilitated discussions, table-top exercises, and hands-on activities in practical search skills and search management based on real world scenarios. The three-day long event concludes with a table-top exercise which requires participants to utilize the skills gained during the course to work through an incident from start to finish in a single operational period.
