LESTA App Guide

Install the LESTA app on your iPhone or Android phone and turn on class notifications

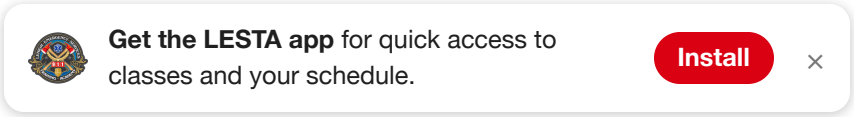

The LESTA app is the **lestafire.org** website saved to your phone's Home Screen. It opens full screen like any other app. Use it to browse trainings, register, check your schedule and get alerts about your classes. There's nothing to download from the App Store or Google Play, and it updates by itself.

IPHONE / IPAD Install with Safari

1. Open the **Safari** app and go to **lestafire.org**. Use Safari itself, not Chrome or a link opened inside another app such as Mail or Facebook.
2. Tap the **Share** button (a square with an arrow pointing up). On newer iPhones, tap ••• first to find Share.
3. Scroll down and tap **Add to Home Screen**, then tap **Add**.
4. The **LESTA** icon now appears on your Home Screen. Always open LESTA from this icon.

ANDROID Install with Chrome

1. Open **Chrome** and go to **lestafire.org**.
2. When this banner appears, tap **Install**, then confirm:

3. No banner? Tap Chrome's menu ⋮ (top right), then **Install app** or **Add to Home screen** → **Install**.
4. The **LESTA** icon now appears on your Home Screen and in your app list.

> **Samsung Internet:** tap the menu ≡, then **Add page to** → **Home screen**.

BOTH Turn on notifications

Notifications tell you about registration confirmations, class reminders, cancellations and new trainings. Your emails still arrive as usual.

1. Open the **LESTA** app from your Home Screen and **log in**.
2. Tap **My account**, then the **Notifications** tab.
3. Tap **Turn on notifications on this device**, then tap **Allow** when your phone asks.
4. Tap **Send a test notification** to check it works.
5. Optional: under **New trainings**, choose **All new trainings** or pick only the categories you care about. You'll be notified within about an hour of a new class being posted.

> **iPhone / iPad:** notifications need iOS 16.4 or newer, and they only work from the Home Screen app. If you open lestafire.org in Safari instead, the button asks you to install the app first.

BOTH Using the app

Trainings	Browse upcoming classes, read the details and requirements, and tap **Register**.
My Schedule	See the classes you're registered for, add them to your calendar, pay for a class or withdraw.
Alerts	Every notification is also kept here, so nothing is lost if you missed it. The number on the button shows unread alerts. Use **Mark all as read** to clear them.
Notifications	Turn notifications on or off for this phone and choose which new trainings to hear about (**My account** → **Notifications**).
Quick shortcuts	**Android:** press and hold the LESTA icon to jump straight to Trainings, My Schedule or Alerts.
Offline	If you lose signal, the app shows an offline page. It reconnects when your signal returns.

Troubleshooting

I don't see the install banner

On Android, use Chrome's menu ⋮ → **Install app** instead. On iPhone there's no install button; use Share → **Add to Home Screen**.

"Notifications are blocked for this site"

iPhone: Settings → Notifications → LESTA → Allow Notifications.
Android: Settings → Apps → LESTA (or Chrome) → Notifications → On.
Then reopen the app and try again.

The test notification didn't arrive

Tap **Turn off on this device**, then turn it back on. Check that your phone isn't in Do Not Disturb or Focus mode.

Removing the app

Press and hold the LESTA icon and choose **Remove App** (iPhone) or **Uninstall** (Android). Your account and registrations aren't affected.
